## KEY FINDINGS SUMMARY

Sharps Inspection	Hazard Found
Rapid Meth Test	Positive
Lab Test Ordered	No
Comments—Details of Hazards Found, if any	

## DISCLAIMER

This inspection report has been prepared by Hazard Inspect Pty Ltd ("Hazard Inspect") to identify potential health or safety hazards commonly associated with recovered stolen vehicles, including but not limited to sharps and meth residue.

The inspection is non-invasive, visual in nature, and limited to accessible areas of the vehicle at the time of inspection. No guarantee is made as to the complete absence of hazards and contaminants, and this report does not constitute a mechanical, structural or roadworthiness assessment.

While all care has been taken to identify visible or accessible risks, Hazard Inspect cannot guarantee that all hazards—particularly those hidden, embedded, or requiring forensic-level testing—will be detected. Additional specialist cleaning, decontamination, or forensic testing may be required.

This report is intended for use by the client named and should not be relied upon by third parties without written consent from Hazard Inspect. Whilst Hazard Inspect its staff and/or contractors, undertake that they have taken due care in undertaking the inspection, it accepts no liability for any loss, injury, or damage arising from the use of this report outside its intended purpose.
